SUMMARY

Accomplished Software Developer with a strong foundation in delivering exceptional results. 3+ years of hands-on experience in fast-paced environments. Committed to continuous learning and staying ahead of industry trends.

EXPERIENCE

Software Developer

04/2024 – Present

Free State Department of Health

- **Full-Stack Engineering:** Co-led the end-to-end development of a departmental service desk system, overseeing the full software development lifecycle (SDLC) from initial architecture to final deployment for 10,000+ users.
- **System Integration & Deployment:** Engineered robust internal APIs and managed project deployments, ensuring seamless data flow and high availability across the entire organizational infrastructure.
- **Quality Assurance & Governance:** Spearheaded technical excellence through rigorous code reviews, comprehensive unit testing, and debugging to maintain high-performance standards and codebase stability.
- **User Impact & Scalability:** Designed and implemented scalable solutions to support a large-scale user base, significantly improving internal support workflows and departmental efficiency.

Software Developer

01/2023 – Present

Self-Employed (Freelance)

- **Architecture & Development:** Engineered and deployed end-to-end web applications using MongoDB, Express.js, React, and Node.js, ensuring high availability and scalable database schemas.
- **API Integration:** Developed secure RESTful APIs with JWT authentication and integrated third-party services (e.g., Stripe for payments, AWS S3 for image hosting).
- **Performance Optimization:** Improved frontend rendering speeds by implementing React hooks, code-splitting, and optimized Redux state management.
- **Client Management:** Conducted discovery sessions to gather requirements, translated business needs into technical specifications, and managed project timelines using Agile methodologies.

EDUCATION

Bachelor of Computer Information Systems

University of the Free State

National Senior Certificate

Atlehang Senior Secondary School

SKILLS

HTML/CSS • JavaScript • Tailwind CSS • C# • .NET Framework • React • Next.js • Node.js • Express • SQL • PostgreSQL • GraphQL • TypeScript • python • php • codeigniter • RESTful API • API design • MongoDB • Git & GitHub • version control • AWS • Azure • Docker • Terraform • Kubernetes • Testing • CI/CD pipelines
